WHY I LOVE COA

COA has always been near and dear to our hearts. My 6 school-aged children went to COA, and they all had a safe and wholesome experience while studying there. Serving on the ELAC committee, I was overpowered emotionally to see how much the staff and administration care about the school and the students—not just about the test scores but the well-being of the students. The admin and staff have built a community that everybody wants to be a part of, and the relationships we built with teachers still last today. Our roads changed a few years ago and we had moved out of state of CA, but I wish we didn't have to leave COA. COA's level of education was a big changer for me as a parent and I had previous experience to compare to others. My children are fluent in Russian with the skill of reading and writing now as a bonus because of COA, which will allow them to achieve more in their future. Even today, they use this gift to serve the community. Thank you to the wonderful admin and staff for being a good support team to our children.
